CPHCE Bi-monthly Newsletter

CPHCE, UNSW

CPHCE Bi-monthly Email Newsletter March - April 2024

Highlights

The Review of general practice incentives: International evidence and literature review, commissioned by the Australian Department of Health and Aged Care, was completed by the CPHCE in collaboration with Centre for Future Health Systems and School of Population Health. This review was undertaken to inform the future design of payment models and performance incentives for primary health care as part of a broader reform of General Practice Incentives (Reform of General Practice Incentives Programs) which was announced in the 2023-24 Budget responding to recommendations of the [Strengthening Medicare Taskforce report](#). For more information please contact [Margo Barr](#).

Working Together Workshop

A Working Together workshop was held on the 5th of March at the Kerry Packer Education Centre, RPA Hospital Campus, Camperdown, Sydney NSW. This was an EquityFest event in partnership with SLHD and the CPHCE.

Led by A/Prof Marilyn Wise, Dr. Cathy O'Callaghan, and Ratu Marika Lewanavanua, the inaugural workshop used the practical guide to draw on the experiences of SLHD participants and identify key factors influencing successful collaboration through presentations, case studies and discussions. This approach not only provided practical insights but also fostered a rich exchange of knowledge and best practices among participants.

The workshop's focus on equipping attendees with the necessary skills and concepts for effective collaboration underscores its significance in advancing healthcare projects. Moreover, the inclusion of plans for future workshops indicates a commitment to ongoing professional development and the continuous improvement of collaborative practices within the healthcare community.

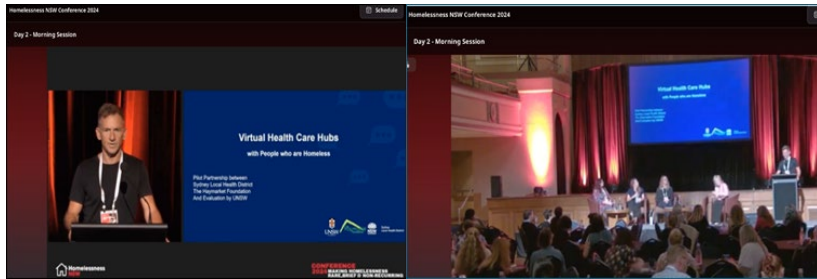

For more information please contact:

People

UNSW published a story on CPHCE & SPH Scientia PhD graduate Jinhee Kim. Jinhee was the first Scientia PhD to be appointed to the Scientia Program. Jinhee completed her PhD with CPHCE on 'Paradigms, clusters and traditions on urban health: articulating diverse ontological perspectives to advance transdisciplinary approaches to urban health research and policymaking' under the supervision of Prof Evelyne de Leeuw.

Communication

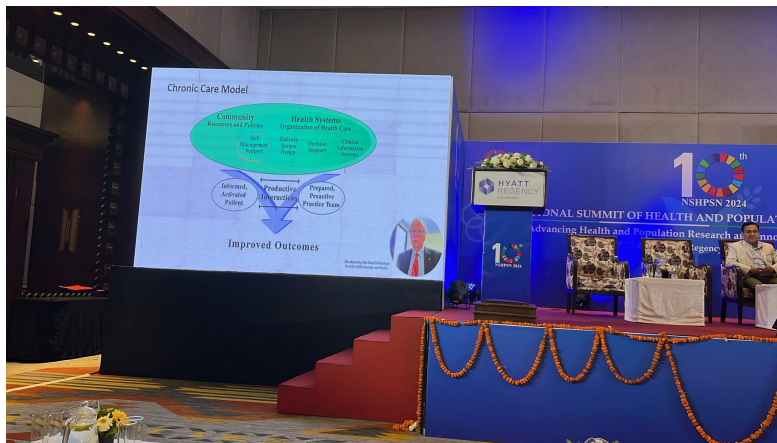

Evaluation of the Virtual health Hub for people experiencing homelessness in SLHD recognised at statewide homelessness forum. CPHCE is leading the Evaluation of the pilot [Virtual Health Hub for People Experiencing Homelessness in SLHD](#) with the Homelessness Team, RPA Virtual Hospital and the Haymarket Foundation. Paul Clenaghan, SLHD Program Director of Homeless presented at the [Homelessness NSW Conference](#) on the promising evaluation results including high quality patient reported measures and stakeholder satisfaction with working together to meet the complex physical and psychological health needs of patients. For more information about the project please contact [Cathy O'Callaghan](#).

Patrick Harris give evidence at the 'Inquiry into the planning system and the impacts of climate change on the environment and communities' on 8th March 2024. This inquiry was established on 24th August 2023 to inquire into and report on the planning system and the impacts of climate change on the environment and communities. For more information please contact [Patrick Harris](#).

Chris Standen presented at Engineers Australia's webinar on the lessons learned from the Rozelle Interchange. The 91 attendees at the seminar were from government, parliament, industry and academia sector. Chris was also interviewed by [ABC NewsRadio](#) (broadcast nationally and online) on Monday afternoon discussing the health impacts of large trucks/SUVs, and Yarra Council's proposal for higher parking fees. For more information please contact [Chris Standen](#).

E/Professor Mark Harris gave a keynote presentation on 'Advancing public health through self-management of chronic conditions' at the 'Tenth National Summit on Health and Population Scientists in Nepal' hosted by National Health Research Council at Katmandu on 12th April 2024. Mark was asked to present at the summit by one of his former PhD students, Uday Narayan Yadav.
