SUMMARY OF COURSE

This course is aimed at postgraduate research students to evaluate and develop their thesis writing abilities and skills. Weekly sessions cover the overall structuring of the thesis; writing the introduction; the literature review; the methodology chapter; discussion chapters; the conclusion and the abstract and understanding examiner expectations with an emphasis on managing the writing process over an extended time period and on managing large amounts of texts. The course is informed by current applied linguistic and educational research into advanced academic and professional writing and includes writing a conference paper and journal article and preparing for seminar/conference presentations.

STUDENT LEARNING OUTCOMES

Outcomes		Assessment/s
1	Analyse and compare the structure and organisation of the research genres of the thesis, the journal article; the conference paper and the oral presentation	1, 2
2	Explain the choices as to how to structure and organise a research thesis or other research genre with reference to current research into advanced academic and professional writing	1, 2
3	Use the linguistic and discursive resources of academic English to draft thesis chapters, journal articles and conference abstracts	1, 2

PROGRAM LEARNING OUTCOMES

Standard		Assessment/s
1	**Advanced disciplinary knowledge and practices** Demonstrate an advanced understanding of the field of education as it relates to their specialist area of study, and the ability to synthesize and apply disciplinary principles and practices to new or complex environments	1, 2
2	**Enquiry-based learning** Demonstrate an in-depth understanding of research-based learning and the ability to plan, analyse, present, implement, and evaluate complex activities that contribute to advanced professional practice and/or intellectual scholarship in education	1, 2
3	**Cognitive skills and critical thinking** Demonstrate advanced critical thinking and problem-solving skills	1, 2

4. RATIONALE FOR THE INCLUSION OF CONTENT AND TEACHING APPROACH

The first half of the course provides an opportunity for postgraduate students to consider the overall structure and purpose of academic writing. It examines the ways in which research theses in Education are structured and the typical structure and organisation of the various components of a research thesis. This said, through an examination of recently submitted UNSW Education theses, the course also looks at the different ways in which writers are choosing to structure and organise their theses and considers the options available to thesis writers. You are encouraged to consider the extent to which these options are shaped by 'traditions' within your own disciplinary area.

We also look at the rhetorical organisation of the various sections – the ways in which writers use language to develop an argument, take a position, and the strategies they deploy to persuade their reader. We discuss examples from completed UNSW theses and consider how the writers have achieved their purpose. You are encouraged to think about how you would like to 'sound' in your thesis and the kind of 'academic identity' you take on. This section concludes with a discussion of the research on examiners' expectations of research theses. The examiner is, above all, a reader! We will then discuss two other significant research genres: the conference paper and the journal article and provide an opportunity for you to examine a journal article from your field. Most disciplines now expect research students to publish papers from their research in the course of writing their thesis and this can benefit the student in a number of ways. The aim of this component of the course is to help students prepare for a variety of contexts in which they will need to communicate.

5. TEACHING STRATEGIES

This course will be taught with a strong emphasis on student participation. Students will be provided with online material and references to research journals which they will be expected to read prior to each session. Students will have the opportunity of sharing their ideas with each other in an online discussion group. Various activities, e.g., giving feedback in pairs and triads, small group discussions and other practical activities will engage students and enable a deeper understanding of the related issues.

6. COURSE CONTENT AND STRUCTURE

This course is delivered via four intensive seminars over four days.

Module	Lecture Topic
Day 1	In this introductory day of our course, we will discuss the overall aims of the course and how it aims to help you with your thesis writing and other types of research writing. The session will focus specifically on factors that can affect thesis writing, thesis structure, and writing the Introduction. I will introduce the four questions framework. As we are meeting in an intensive mode, there will be activities for students to engage in and opportunities for discussion through the day.
Day 2	There are many approaches to writing a literature review and a methodology chapter. In this session, we will look at the typical ways literature reviews and methodology sections of research theses in educational fields are organised and structured. We will discuss the functions of these two key components of your thesis and look at examples from completed theses. There will be opportunities for discussion and activities that involve you in thinking and writing. We will also look at the research into examiners' expectations of a literature review. Please bring a literature review chapter and a methodology chapter from a thesis in your field to class. Digital version is fine.
Day 3	In this session, we look at writing findings/discussions chapters. We also look at writing the conclusion and the research into examiners' expectations in more detail. We will talk about how your frame your study's contribution and its implications and once again there will be writing and thinking activities. Please bring a discussion chapter to class as well as a conclusion chapter
Day 4	This is the final day of our intensive course. We focus on writing conference abstracts and journal article introductions. I will share with you my experience of being a journal editor and reviewer and provide advice on getting published in academic journals. Activities will relate to this focus. Please bring a journal article from a journal you would like to publish in to class.

8. ASSESSMENT

Assessment Task	Length	Weight	Student Learning Outcomes Assessed	Program Learning Outcomes Assessed	Date due
Assessment task 1: Peer and Self-Assessment	3000 words	30%	1-3	1-3	Tuesday 18th January by 5pm
Assessment task 2: Thesis chapter production	6000 words	70%	1-3	1-3	Monday 30th January by 5pm

Submission of assessments

Students are required to follow their lecturer's instructions when submitting their work for assessment. All assessment will be submitted online via Moodle by 5pm. Students are also required to keep all drafts, original data, and other evidence of the authenticity of the work for at least one year after examination. If an assessment is mislaid the student is responsible for providing a further copy. Please see the Student Policies and Procedures for information regarding submission, extensions, special consideration, late penalties, and hurdle requirements etc. https://education.arts.unsw.edu.au/students/courses/course-outlines/

Assessment Details

Assessment Task 1: Peer and self-assessment

1. Submit a 3000-word excerpt of a first draft of the thesis chapter.
2. Self-assess your draft and peer-assess the draft assigned to you in the workshop.

Assessment 2: Thesis Chapter Production

Submit a 6000-word excerpt from the draft thesis chapter that you submitted for Task 1.
