ENTRY REQUIREMENTS AND APPLICATION PROCESS

- SoHS Honours welcomes applications from students across a diverse range of backgrounds. Typically, we receive applications from Health Sciences students (e.g. Exercise Science/Exercise Physiology, Physiotherapy, Pharmaceutical Medicine, Nutrition and Dietetics) who have completed their undergraduate degree in these disciplines. However, students from other disciplines who are interested in Health Sciences research are welcome and should discuss their Honours year with a potential supervisor and/or the SoHS Honours coordinator.
- 2. The minimum eligibility requirements for Honours at SoHS are:
 - An overall WAM of ≥65% (credit average) for your Bachelors Degree;
 - Satisfied the requirements of the program in which you are enrolled;
 - Acceptance by a supervisor.
- 3. You should discuss available projects with potential supervisors before completing this form (please refer to the SoHS Honours website for the list of projects and supervisors). Primary supervisors must be an academic or conjoint title holder in UNSW Medicine and Health and approved by the SoHS Honours committee.
- 4. Students completing programs in 3890 Bachelor of Applied Exercise Science, 3891 Bachelor of Nutrition, 3892 Bachelor of Pharmaceutical Medicine, 3893 Bachelor of Exercise Science, 3991 Bachelor of Medical Science, 3987 Bachelor of Science (International), 3925 Bachelor of Science and Business will need to graduate from their Bachelor programs and apply for the 4500 Bachelor of Science (Honours) program. Once accepted and matriculated into the 4500 Science (Honours) program, you will be able to enrol in the HLTH4016 Honours course.
- 5. ALL STUDENTS (including continuing UNSW students in the Advanced Science and other Honours embedded programs): Please see the Faculty of Science Honours webpage regarding the application process. Please upload a copy of this completed form in "Section 4: Honours Supervision" when submitting the Intention to Undertake Honours form.

THE HONOURS COURSE

The SoHS Honours course HLTH4016 is a research focused course that runs across three terms full-time, with an expected commitment of 35 hours per week. Students can commence the Honours course in either T1, T2 or T3. While students can engage with the research project by doing some background reading, you cannot commence any research work until you have enrolled and completed the necessary Workplace Health and Safety training and/or NSW Health compliance.

The work submitted for assessment as the project manuscript must only be conducted during your enrolled candidature.
