

# Bachelor of Medical Studies & Doctor of Medicine / Bachelor of Arts 3856

## Important Program Information

Please speak to the Faculty of Arts, Design & Architecture on the sequence of enrolments for your chosen area(s) to meet the 96 UOC required for the Arts component of this program.

Generally, students cannot be concurrently enrolled in both the Medicine and Arts components of this program and will focus on only one component at a time. This is highly likely to increase the duration of the program to approximately 8-9 years.

Please speak with the Medicine and Health team in The Nucleus Student Hub prior enrolling in this program. For additional information, you may also visit the following Medicine Program website-- [Medicine/Arts Program 3856](#).
