Add a Course Readings List to Moodle

1. Email your course readings list to the library

- To add a course readings list to Moodle, first email your list to the library's Course Readings Team: CourseReadings@adfa.edu.au
- The Course Readings Team will add your list to the Leganto platform
- You will be notified via email when your list is processed.

2. Open your course in Leganto

- When you receive your email notification, it will include a permalink to your course in Leganto.
- Click on this link to open your course.

3. Copy links from Leganto

From Leganto, you have the option to copy
- an entire reading list
- a section, or
- an individual item.

    i. To copy an entire reading list:
Select the elipse adjacent to the course name

    ii. To copy a section:
Select the elipse adjacent to the section or week heading. This will copy all the readings under that heading

iii.   To copy an individual record:
Select the elipse adjacent to the title of the reading
