

Invitation to participate in research.

Myopia control specific item bank development to measure quality of life parameters.

Researchers at UNSW Sydney (The University of New South Wales) are seeking volunteer participants to share their experiences with treatments for short-sightedness (myopia) and how these treatments affect their daily lives.

The study might be a good fit for you if you are:

- ✓ Short-sighted (myopic) and receiving treatments to slow its progression.
- ✓ Aged 8-17 years(inclusive) along with guardians/parents.
- ✓ Aged 18-21 years(inclusive)

What would happen if I took part in the research study?

An online in-depth interview may take 45 minutes, or a focus group discussion may take 90 minutes, using UNSW Microsoft Teams at a time and location convenient for you.

Will I be paid to take part in the research study?

There are no additional costs or incentives associated with this study.

- If you are interested in to take part in, please contact the student investigator and register or **scan** the QR codes.

Name: Aragaw Kegne Assaye, email: a.assaye@unsw.edu.au , phone: 0481297027.
