

2023 UNSW Honours Conference Program
UNSW School of Psychology
Thursday 19 October 2023
Patricia O'Shane Building

Room 1 (Patricia O'Shane 104)

Time	Slot	Speaker	Supervisor	Title	Chair
10:30 - 10:45	OPENING REMARKS IN PATRICIA O'SHANE 104				
10:45 - 11:00	A.01	Alexandra Gregroy	Simon Killcross	The influence of sub-chronic amphetamine sensitisation on performance in a rodent value modulated attentional capture task	Miriam Matamales
11:00 - 11:15	A.02	Kopal Parmar	Simon Killcross	The effects of methamphetamine on response conflict resolution and the potential impact of an anti-oxidant treatment	
11:15 - 11:30	A.03	Sophie Welch	Karly Turner	Refining the measurement of habits	
11:30 - 11:45	A.04	Filip Mencevski	Fred Westbrook	Temporal and Contextual Regulation of Fear Memory Reconsolidation in the Basolateral Amygdala Complex	
11:45 - 12:00	A.05	Christopher Shen	Miriam Matamales	Investigating the role of cholinergic interneurons in the spatial reorganisation of striatal activity during action refinement	
12:00 - 12:15	SHORT BREAK (15 MINS)				
12:15 - 12:30	A.06	Feihong Wang	Rick Richardson	Reversing the Impacts of Maternal Separation on Anxiety-like Behaviour and the Immune System with Environmental Enrichment	Rick Richardson
12:30 - 12:45	A.07	Sara Simenson-Braun	Rick Richardson	The Unexplored Pathway of Early Life Immune Activation Leads to the Precocious Emergence of Adult-like Extinction in Infant Rats	
12:45 - 13:00	A.08	Riya Amin	Rick Richardson	Mechanisms Underlying the Recovery of Forgotten Infant Memories	
13:00 - 13:15	A.09	Anthony Dourambeis	Kelly Clemens	The role of HDAC inhibition on nicotine reward-related learning	
13:15 - 14:15	LONG BREAK (60 MINS)				
14:15 - 14:30	A.10	Hayley Talosig	Kelly Clemens	Prenatal vs Postnatal NaB: Effect on Rat Offspring exposed to Prenatal Methadone	Kelly Clemens
14:30 - 14:45	A.11	Ashlee Craig	Kelly Clemens	The brain derived neurotrophic factor antisense expression after nicotine exposure and cessation	
14:45 - 15:00	A.12	Joli Doan	Jessica Grisham	Higher hoarding symptoms associated with greater dispositional anger, aggression, and hostility but not in response to an in vivo anger provocation	
15:00 - 15:15	A.13	Phaedra Fuller	Jessica Grisham	It's a Mad House: The Experience and Expression of Anger in Hoarding	
15:15 - 15:30	A.14	Khaizuran Kamarul	Yann Quide	Brain in Pain: The Impact of Post-traumatic Stress Symptoms on White Matter Integrity in the Context of Chronic Pain	
15:30 - 15:45	SHORT BREAK (15 MINS)				
15:45 - 16:00	A.15	Verina Sun	Eva Kimonis	Educators' Mental Health Literacy and Attitudes Towards Students with Conduct Problems With and Without Callous-Unemotional Traits	Nathan Holmes
16:00 - 16:15	A.16	Lily Chen	Eva Kimonis	Clarifying the Unique Association Between Child Conduct Problems and Parent-Child Mutually Responsive Orientation	
16:15 - 16:30	A.17	Lauren Sams	Nathan Holmes	The Effect of the α 2-Adrenoceptor Agonist, Clonidine, on Second-Order Fear Conditioning and its Extinction in Rats	
16:30 - 16:45	A.18	Michael Gostelow	Bernard Balleine	Associative Extinction Weakens the Instrumental Response-Outcome Association	
16:45 - 17:00	CLOSING REMARKS IN PATRICIA O'SHANE 104				
17:00 - 19:30	DRINKS AND NIBBLES AT THE LOUNGE				

Room 2 (Patricia O'Shane 105)

Time	Slot	Speaker	Supervisor	Title	Chair
10:30 - 10:45	OPENING REMARKS IN PATRICIA O'SHANE 104				
10:45 - 11:00	B.01	Jessica Pan	Jenny Richmond	How Does Language Complexity in Cover Letters Impact Judgements of Job Applicants?	Tom Denson
11:00 - 11:15	B.02	Georgia Saddler	Jenny Richmond	Exploring how different note taking strategies effect recall and recognition memory in a simulated classroom setting	
11:15 - 11:30	B.03	Rebecca Caton	Bronwyn Graham	Perceptions and use of extended-duration exposure therapy amongst a sample of Australian psychologists	
11:30 - 11:45	B.04	Sadaf Hazara	Bronwyn Graham	Exploring Mood and Anxiety Across the Menstrual Cycle: Roles of Motherhood, Menstrual Attitudes, and Menstrual Pain	
11:45 - 12:00	B.05	Serena Chiu	Tom Denson	Dying to Play: Understanding the Appeal and Positive Effects of Playing Violent Video Games	
12:00 - 12:15	SHORT BREAK (15 MINS)				
12:15 - 12:30	B.06	Madeleine Lim	Philippa Specker	An experimental investigation of the relationship between emotion regulation flexibility, negative affect, and posttraumatic stress disorder	Belinda Liddell
12:30 - 12:45	B.07	Anna Camilleri	Angela Nickerson	The Association Between Institutional Rights Violations and Psychological Outcomes in Refugees: The Mediating Role of Moral Injury Appraisals	
12:45 - 13:00	B.08	Cassandra Steeth	Belinda Liddell	Attachment Orientation Among Refugees in Australia — A Latent Profile Analysis	
13:00 - 13:15	B.09	Nabeeha Rahman	Belinda Liddell	Social Stress and Refugee Mental Health: Investigating the Role of Interpersonal Emotion Regulation	
13:15 - 14:15	LONG BREAK (60 MINS)				
14:15 - 14:30	B.10	Matthew Mai	Zhi Yi Ong	The Role of the Cortical-Hindbrain Pathway in Cue-Induced Feeding Behaviours	Zhi Yi Ong
14:30 - 14:45	B.11	Helen Gu	Zhi Yi Ong	The Role of the Hindbrain in Cue-Induced Appetitive Behaviour	
14:45 - 15:00	B.12	Saraa Al-Saddik	Gavan McNally	The effect of medial orbitofrontal cortex stimulation on punishment sensitivity.	
15:00 - 15:15	B.13	Janine Walsh	Gavan McNally	The impact of sex differences and parvalbumin neurons on the conditioned inhibition of fear	
15:15 - 15:30	B.14	Alesha Kumar	Vincent Laurent	A Novel Manipulandum in the Role of Action-Outcome Associations in Specific Pavlovian-Instrumental Transfer	
15:30 - 15:45	SHORT BREAK (15 MINS)				
15:45 - 16:00	B.15	Hoi Ka Daphne Cheng	Vincent Laurent	The Role of Nicotinic Acetylcholine Receptors in Fear Regulation	Jay Bertran Gonzalez
16:00 - 16:15	B.16	Sally Wong	Jay Bertran Gonzalez	Influence of Context on Behaviour: Exploring the Role of the Thalamo-Striatal Pathway	
16:15 - 16:30	B.17	Liana Yuan	Gavan McNally	Path-Dependency in Punishment Learning: An Investigation of Mechanisms	
16:30 - 16:45	B.18	Nikki Huang	Gavan McNally	Amygdala Neuronal Ensemble Dynamics During Punishment Learning	
16:45 - 17:00	CLOSING REMARKS IN PATRICIA O'SHANE 104				
17:00 - 19:30	DRINKS AND NIBBLES AT THE LOUNGE				

Room 3 (Patricia O'Shane G02)

Time	Slot	Speaker	Supervisor	Title	Chair	
10:30 - 10:45	OPENING REMARKS IN PATRICIA O'SHANE 104					
10:45 - 11:00	C.01	Jenny Wang	Richard Kemp	Did You See That? Investigating Causal Inference Errors in the Laboratory	Richard Kemp	
11:00 - 11:15	C.02	Chloe Wood	Richard Kemp	Joining the Dots on the Joinder Effect: Using a Novel Jury Paradigm to Test the Effects of Impermissible Reasoning Errors during Deliberation		
11:15 - 11:30	C.03	Daniel Chu	David White	Individual Differences in Social Characteristics that Impact Other-Race Effect Size and People's Meta-Cognitive Awareness of It		
11:30 - 11:45	C.04	Holly Braico	David White & James Dunn	Attentional Prioritisation of Faces and Its Association with Face Recognition Ability in a Value-Modulated Attention Task		
11:45 - 12:00	C.05	Grace Lanyon	David White & James Dunn	Why Does the Social Evaluation of Faces Improve Memory? Comparing Social Representation and Feature-Elaboration Hypotheses Using Eye-Tracking		
12:00 - 12:15	SHORT BREAK (15 MINS)					
12:15 - 12:30	C.06	Remika Trieu	Craig Sinclair	Factors Influencing Treatment Preferences and Decisional Conflict in Substitute Decision-Making: A Factorial Survey in the Australian Community	Erin Goddard	
12:30 - 12:45	C.07	Elena Bonello	Lenny Vartanian	The Weight of Genetics on Lay Perceptions of Weight and Health		
12:45 - 13:00	C.08	Marwin Tang	Lenny Vartanian	Fluctuations in Body Image Dissatisfaction among Women: The Role of Self-Concept Clarity		
13:00 - 13:15	C.09	Kristina Petkovich	Kate Faasse	The right frame of mind: The efficacy of attribute framing on reducing the placebo effect.		
13:15 - 14:15	LONG BREAK (60 MINS)					
14:15 - 14:30	C.10	Philip Edwards	Kylie Radford & Louise Lavrencic	Comparing in-person to remote cognitive assessment with older Aboriginal participants	Kristy Martire	
14:30 - 14:45	C.11	Natasha Smith	Kristy Martire	When time is of the essence: Analysing how endorsers and non-endorsers of implausible beliefs evaluate evidence quality under time pressure.		
14:45 - 15:00	C.12	Tairon Zhang	Lucette Cysique & Lauriane Jugé	Obstructive Sleep Apnoea and Associated Cognitive Dysfunctions in Relation to Nocturnal Blood Pressure Surges		
15:00 - 15:15	C.13	Elizabeth Connon	Skye McDonald	Can Display Rules Explain Perceived Emotion Intensity? – a Cross-Cultural Exploration		
15:15 - 15:30	C.14	Hannah Marshall	Skye McDonald	The Role of Motivation in Emotion Perception		
15:30 - 15:45	SHORT BREAK (15 MINS)					
15:45 - 16:00	C.15	Ella Seabrook	Branka Spehar	The Affective Tone of Visual and Tactile Sensations	Branka Spehar	
16:00 - 16:15	C.16	Rhys Turrall	Branka Spehar	Investigating Individual Differences in Aesthetic Preferences Across Visual Categories		
16:15 - 16:30	C.17	Kit Fu	Colin Clifford	Gaze adaptation beyond the horizontal		
16:30 - 16:45	C.18	Kritika Sarna	Colin Clifford	What do we see in random noise? A male bias in the perception of illusory faces		
16:45 - 17:00	CLOSING REMARKS IN PATRICIA O'SHANE 104					
17:00 - 19:30	DRINKS AND NIBBLES AT THE LOUNGE					

Room 4 (Patricia O'Shane 103)

Time	Slot	Speaker	Supervisor	Title	Chair	
10:30 - 10:45	OPENING REMARKS IN PATRICIA O'SHANE 104					
10:45 - 11:00	D.01	Caitlyn Jowett	Tom Whitford	Distinguishing Inner Speech from Motor Imagery using Electroencephalography	Tom Whitford	
11:00 - 11:15	D.02	Tong En Lim	Tom Whitford	Investigating the relationship between schizotypy and inner speaking-induced-suppression		
11:15 - 11:30	D.03	Sarah Daniels	Susanne Schweizer	Uncertainty Mindsets: A Novel Single Session Online Intervention Improves Uncertainty Tolerance and Mental Health in Older Adolescents		
11:30 - 11:45	D.04	Karen Coad	Steve Most	Impact of Positive Emotional Stimuli on Perception and Memory along with Depression Indicator Correlates		
11:45 - 12:00	D.05	Yue Shi Ai	Steve Most	Does Appraisal Modulate Biases for Emotional Stimuli in Perception and Memory? An Exploratory Investigation of Factors That Might Make a Difference		
12:00 - 12:15	SHORT BREAK (15 MINS)					
12:15 - 12:30	D.06	Ryan Kennedy	Brett Hayes	Influencing learning traps with decision horizons	Brett Hayes	
12:30 - 12:45	D.07	Samuel Vigouroux	Ben Newell	Exploring Exploration Under Uncertainty		
12:45 - 13:00	D.08	Carla Pham	Peter Lovibond	The effect of implied and explicit cues on causal illusions		
13:00 - 13:15	D.09	Shreya Bhatt	Peter Lovibond	The Role of Hypothesis Formation in Learning Predictive Relationships		
13:15 - 14:15	LONG BREAK (60 MINS)					
14:15 - 14:30	D.10	Annabelle Hudson	Poppy Watson	The Effect of Mindfulness on Attentional Control	Mike Le Pelley	
14:30 - 14:45	D.11	Charlie Su	Mike Le Pelley	The Effect of Outcome-Revaluation on Reward-Modulated Perceptual Encoding		
14:45 - 15:00	D.12	Jaden Terranova	Elizabeth Summerell	The Role of Non-Invasive Brain Stimulation in the Reduction of Alcohol-Related Reactive Aggression		
15:00 - 15:15	D.13	Julia Bradley	Elizabeth Summerell	The role of prefrontal tDCS during anger regulation when intoxicated versus sober		
15:15 - 15:30	D.14	Gabriel Sebban	Eddie Harmon-Jones	Intellectual humility: A mechanism to reduce susceptibility to conspiracy theories		
15:30 - 15:45	SHORT BREAK (15 MINS)					
15:45 - 16:00	D.15	Rukshali Baddevithana	Caitlin Cowan	Assessing the Relationship of Gastrointestinal Distress with Tonic and Phasic Irritability Symptoms in Young Children	Lisa Williams	
16:00 - 16:15	D.16	Sophie Vu	Eddie Harmon-Jones	Humility and Anger Regulation: An Investigation Using a Neuroscience Approach		
16:15 - 16:30	D.17	June Kam	Lisa Williams	The Role of Perceived Risk in Negative Attitudes Towards Blood Transfusion and Donation by Men Who Have Sex with Men		
16:30 - 16:45	D.18	Su-Ann Leong	Lisa Williams	In Donor's Own Words: The Effect of Affect on Presyncope and Return		
16:45 - 17:00	CLOSING REMARKS IN PATRICIA O'SHANE 104					
17:00 - 19:30	DRINKS AND NIBBLES AT THE LOUNGE
